3.2 We require authentication tokens - corporate wide in a large scale environment, and/or database authenticated logon:

MS Exchange Server	Version: _____	Windows Terminal Server	Version: _____
Citrix Terminal Server	Version: _____	Lotus Domino Server	Version: _____

4 Which Authentication Solution is considered?

4.1 Hardware

CrypToken M2048 (MULTOS based)

CrypToken MX2048 (JavaCard based)

4.2 Software

Standard Cryptographic Service Provider (CSP) implementation, based on:

MS-CAPI

PKCS#11

Other: _____

API implementation, based on:

MULTOS

JavaCard

Other Smartcard OS: _____

We need support for the following development environment or tools (name and version):

32 Bit

64 Bit

16 Bit

4.3 Target Operating System:

Windows 32 Bit 64 Bit Version(s): _____

Linux 32 Bit 64 Bit Version(s): _____

Mac OS X Version: _____ Other: _____

Special requirements:

5 Your remarks and suggestions:
